

S.M. 2019

Dear children!

Was very excited to read your letter. It is heart warming to know that the story of a little girl is still interesting and touching for you.

I hope that this story will strengthen the good parts in every one of you and stand in front of your eyes as a sign for what should not be done to people who are different in religious, color, etc.

I managed to survive and rebuild my life. I live now in Tel-Aviv

My son lives in Jerusalem working as a doctor.

I wish you all good luck

Hannah
